REPORT

The invited lecture on the topic "Indian Arctic Expedition - An Experience Sharing" in connection with the inauguration of the association day of the Department of Zoology, St. Joseph's College (Autonomous), Irinjalakuda, was held on October 28, 2022, at 2:30 pm in Marian Hall. The resource person for this lecture was Prof. Dr. Mohammed Hatha Abdulla, who is the Director of the School of Marine Sciences, Cochin University of Science and Technology. The programme started with a prayer, which was led by Ms. Emalda Tomans. Then Ms. Anna Francis, the association secretary, delivered the welcome speech. Dr. Gigi Poulouse, Assistant Professor and Head of the Department, Department of Zoology, introduced the resource person. After the introduction by the HOD, Dr. Prof. Mohammed Hatha Abdulla inaugurated the function.

He started the lecture with his experience when he was in the Arctic region for his studies about the organisms present there. He gave us an idea about how life was in the Arctic region. He talked about the different types of organisms and their characteristics, the Himadri Arctic Research Station, the weather conditions in the Arctic region i.e., the difference between summer and winter, the latitudinal aspects, how one can manage to escape from the polar bears, the difference in sediments collected, the weathering of rocks, the migrating birds and trackers, the global seed vault and many more things. He prepared a presentation with the photos he took during his journey to the Arctic region, which made the session interesting.

It was really an interactive session. At the end of the lecture, the resource person was honored with a token of love by Dr. Sr. Eliza, The Principal of St. Joseph's College (Autonomous), Irinjalakuda. The session was concluded with a vote of thanks by Ms. Sneha Babu.
