

WORKSHOP ON MICROSCOPY

REPORT

Department of Biotechnology organised a workshop on various types of Microscopy on 25th October 2017. The resource person was Mr. Relief M.R., Olympus Optical system Pvt.Ltd. Both UG and PG students from Department of Biotechnology, St. Joseph's College and PG Biotechnology students from St. Mary's College, Thrissur attended the workshop with a total participation of 105 students. In the session, the resource person explained the basics of microscopy along with the precautions to be taken while using microscopes. He also detailed various types of microscopy with an interesting powerpoint presentation. The talk was followed with hands on experience for the students on both upright and inverted microscopes.
