ANNUAL REPORT ON COMMEMORATION OF IMPORTANT DAYS

(2018-2019)

Celebration of the days of the importance plays a significant role in the overall personality development of the students. In an institution like St. Josephs that ardently strives to provide the best mode of education, observing such days of prominence undoubtedly gives means to routing the all-round development of the students. In this perspective, the NSS and NCC units of the college rendered unconditional services towards sensitising the students on their environmental responsibilities through several programs and events that consisted of rallies, competitions and distribution of plant sapling in connection with the 'World Environment Day' on June 5th, 2018. The academic year also faced the Kerala Floods during the month of August leading to the delay and cancellation of several beneficial and time-specific programs. Yet on the other hand, the college could collaborate students in the disaster relief programs. The students paid homage to the soldiers who lost their lives in the Pulwama Attack on February 19th 2019 by the NCC cadets thereby arousing patriotic spirits among the observers. The academic year came to a close with the Department of Biotechnology commemorating the 'National Science Day' on 25th and 26th of February 2019 and celebration of 'Women's Day' by NSS on March 8th through various activities and seminars. Other than the hindrances caused due to the floods, the college was able to impart human and universal values through the commemoration of important days in the campus through different cultural and extra-curricular activities.

Date	Title of the programme/Activity	Organised Department
05-06-2018	Observing Environment Day	NSS
