DESIGN AND REVIEW OF SYLLABUS

INTRODUCTION

St Joseph's college stands as the epitome of quality education with a magnificent legacy of 57 years. The institution has been able to nourish the seeds of value based holistic development and selfless community service amongst students. Women empowerment is the central founding aspect in building this efficient consortium. The institution strives for excellence in inculcating the core values like creativity, integrity, responsibility and accountability. The students are equipped with essential life skills and employability skills to meet the challenges of their futuristic endeavours.

The college practices strict measures to monitor the trends in the field and imbibe these in the syllabus rendered to our students so that they are aware of the developments and are able to perform in any situation thrown at them. At St. Joseph's we prepare our students not only for the educational advancements but also for their upliftment in their moralistic domains providing the society with responsible and committed citizens of tomorrow. We understand that this forms a tremendous concern and should be dealt with sensibly and hence, this institution acknowledges the requirement of the support from all its benefactors.

A regular feedback mechanism is active in our college for systematizing the working of the institution. Feedbacks are collected from the stakeholders to analyse the efficacy and improve the standards. Feedback form consist of statements to measure the agreement/disagreement in a five-point Likert scale. Results are expressed as percentages. Separate space was provided for specific comments. The suggestions from our stakeholders are vital in understanding the requirements of the utilitarian space and they are consistently recorded by the institution for the same. The institution keeps an open ear to all the improvements recommended by our well-wishers and takes the needed measures. This constant review process enriches the institution-stakeholder pact, imbibing the requisite quality measures for the advancement of the institution and its beneficiaries.

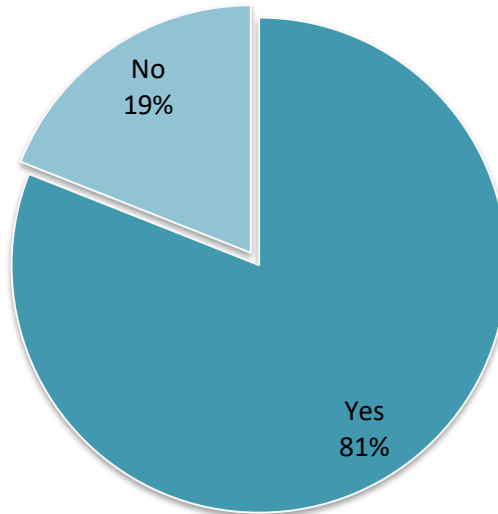

STUDENT FEEDBACK REPORT 2019-20

Student's feedback provides us frequent intimations to improve and keep updated in accordance with the changing education policies and patterns. It is a moment for the college to imagine ourselves in their shoes to have an effective interaction for proper communication. They were at times the guidelines to think the best possible solutions to improve and we always accept our student's healthy criticisms. It's a channel for us to improve the communication flow to increase our work efficiency.

Student feedback is one among the premium criteria that provides the college self-confidence and awareness in the review process. As the syllabus and curriculum are two major parts of student education, the college always gives its prime importance to collect the opinion of our students about what they expect to build a successful career. The student's feedback of this year has valuable insights on their learning needs. This is a guide for the college to adapt, adjust and accommodate reflective learning to make them independent and capable.

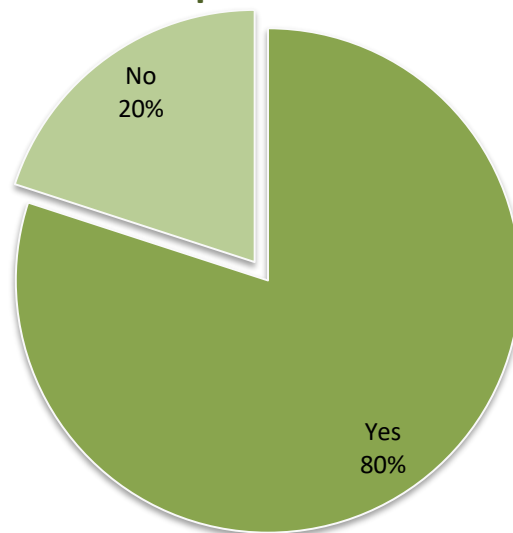

The survey was aimed to bring the satisfaction level of the students who pursue different course curriculums. We are motivated to know that 81% of the students are satisfied and happy with the syllabus as they state that it's relevant and up-to-date.

Syllabus is Relevant and Up to Date

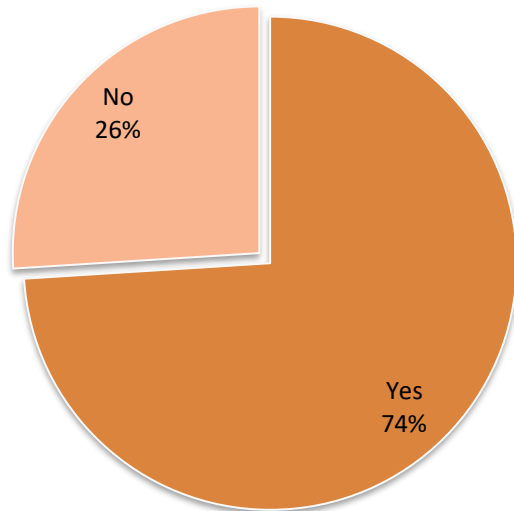

79.4% agree with the fact that the course curriculum is relevant to their dream job and future aspirations. Although there are a few community (16.8%) who are unsure about the future of the curriculum since they are not exposed to the industry, the alumna's who responded fetch to the fact that it's capable to support their achievements. This is one major reason why almost 80% of our students are glad that the curriculum is capable to fulfil the expectations and can develop their personality.

Curriculum is appropriate for job and future aspirations

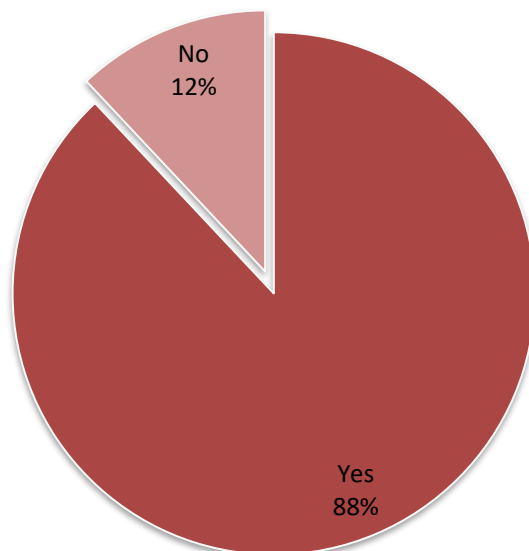

The students indisputably endorse (74.4%) that the valuation is fair and unbiased. 62.8% of the community feels that their suggestions of improvement on curriculum and syllabus are taken for consideration. Though it's a lesser percent compared to the other factors, the college will see through it to inculcate the recommendations from the students to improve the learning process. The college is happy to know that our students are satisfied with the curriculum and syllabus.

Valuation is Fair and Unbiased

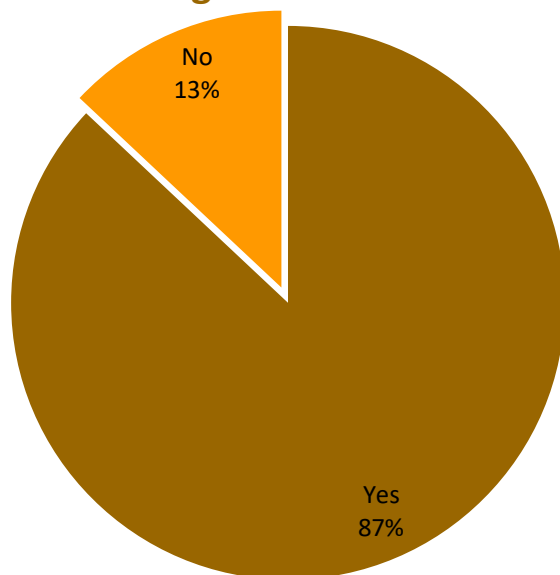

Talking about the teaching learning process, 83.5% of our students are highly satisfied with the learning resources supported in the library facility and they are adequate to support the curriculum. The students are happy about the appropriate references and learning materials that they can arrange from the library resources to support their classroom education. Therefore, the students state (87.7%) that the teaching and the learning process is effective and they believe (85.9%) that the college's examination and valuation is fair with transparent evaluation methods.

Curriculum Delivery is Effective

The college conducts workshops, conferences, interactive sessions, field visits, seminars and quality improvement programs for the students at regular intervals. 87% of the students find it efficient and useful for their holistic growth. We are proud that our students states (87.6%) that the college has taken up and valued social responsibility, value education and professional ethics seriously. We are always in constant effort to induce moral responsibilities along with the teaching process to bring out a socially responsible community for the society. We are privileged to know that our students have taken it from the campus to follow up in their associated areas.

Cocurricular programs are useful for your holistic growth

There are some valuable suggestions raised by the students regarding the improvements to be made for the curriculum. The valuable recommendations like participatory education system, improvement of student-teacher relationship, practical experiences, review processes, job-oriented syllabus etc will be taken for future modifications. There are also some recommendations on extra skills that the students wish to acquire in their academic life. The college will see through the suggestions critically to inculcate the same in the curricular activity.
